

## "Hamba Endleleni Engcwele"

Dear Friends

According to Allison Rae of [www.StarPriestess.com](http://www.StarPriestess.com), "the Full Moon represents points of culmination, magical moments of manifestation and creation" and she is the moon is at her most powerful, embodying fertility, abundance and illumination!

Today's Full Moon in Aries may indicate an increase in fiery energy, or an upsurge of will-power and determination, and we may find ourselves being pushed out of our comfort zones to pursue our dreams! Fortunately, with the Sun in Libra providing balance, beauty and harmony, there is no better time to harness the fiery Aries powers of natural leadership and inspiration, (without being bossy, overbearing or arrogant), take steps towards our goals (by utilizing the Full Moon Magic), and apply the Libran qualities of charm and diplomacy, to ensure the best possible outcomes!

And, with all the full moon lunacy influencing the more sensitive of us, we are blessed this week to have the energies of Goddess Vesta, bringing feelings of warmth, love and ease to the household, offering comfort to all who enter. So, if any of us are experiencing friction in our homes, we just invite Goddess Vesta in, so that she can clear the energy of fear and anger and prevent further conflict. She will also oversee any changes we'd like to make in our living situations.

Vesta is the Roman Goddess of home and hearth, a sun and fire goddess who brings warmth to the households, both as a temperature and an emotion. In ancient times, a sacred fire was continuously burned and tended in her honour by vestal virgins. Every fire was thought to contain part of Vesta's living spirit.

In New Age circles Vesta works with Helios, the Roman Sun God, as Solar Logos. This term denotes divinities that light the flame of the light-body within spiritual aspirants, using the sun's rays from one's solar plexus.

**Various meanings of this card:** You're moving to a new home: You've just moved: A new person is moving in: Someone is moving out: There is increased romance and/or harmony in the home: A problem with neighbours is resolved: Clear the space in your home: Remodel: Know that your home is safe and protected:

One way to call Vesta in to our home is to light a candle or a fire. As we light the flame we can place our hands on our Solar Plexus and say something like:

**"Dearest Vesta please bring your flame of Divine love in to this home and light the fire of compassion and understanding within everyone who lives and visits this household. Help us to burn away any fears concerning love and to feel warm and secure."**

Then we just sit back and watch how everyone's inner flame is recharged. Be sure that Vesta will answer our requests, and besides tucking us in at night and showering us with compassion, she will illuminate us with star dust in order for us to remember our magical properties and qualities!

Have an illuminatingly, fertile week, manifesting in perfect Libran balance!

Love and Blessings

Helen
